## ADMINISTRATION OF MEDICATION POLICY

**Board Policy #: 5090**

**Approved: February 22, 2018**

**Amended: February 17, 2021**

The Board of Directors of Student Success Programs, Inc. hereby adopts this Administration of Medication Policy to apply to Audeo Charter School and The Charter School of San Diego, hereafter collectively referred to as “Charter School.”

Charter School staff is responsible for overseeing the administration of prescribed and over-the-counter medication to students during the regular school day. It is imperative that practices followed in the administration of medication be carefully delineated to ensure the safety of our students and the legal protection of our employees.

### **Definitions**

- “*Authorized health care provider*” means an individual who is licensed by the State of California to prescribe medication.
- “*School nurse*” means an individual who is currently a credentialed and licensed registered nurse employed by the Charter School.
- “*Other designated Charter School personnel*” means an individual employed by the Charter School who has (1) has consented to assist/administer medication to students and (2) may legally assist/administer the medication to students.
- “*Medication*” includes prescription medication, over-the-counter remedies, nutritional supplements, and herbal remedies.
- “*Regular school day*” includes during school hours, before- or after-school programs, field trips, extracurricular or co-curricular activities, and camps or other activities that typically involve at least one (1) overnight stay from home.

### **Administration of Auto-Injectable Epinephrine or Inhaled Asthma Medication**

Any student who is or may be required to take, during the regular schoolday, prescription auto-injectable epinephrine (“EpiPen”) or inhaled asthma medication prescribed or ordered for the student by an authorized health care provider may carry and self-administer prescription an EpiPen

or inhaled asthma medication if Charter School receives both the appropriate written statements as follows:

1. A written statement from the authorized healthcare provider (1) detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken, and (2) confirming that the pupil is able to self-administer an EpiPen or inhaled asthma medication, and
2. a written statement from the parent, foster parent, or guardian of the student (1) consenting to the self-administration, (2) providing a release for the school nurse or designated school personnel to consult with the health care provider of the student regarding any questions that may arise with regard to the medication, and (3) releasing the Charter School and school personnel from civil liability if the self-administering pupil suffers an adverse reaction as a result of self-administering medication.

These written statements specified shall be provided at least annually and more frequently if the medication, dosage/amount, frequency of administration, or reason for administration changes.

A student may be subject to disciplinary action if the student uses an EpiPen or inhaled asthma medication in a manner other than as prescribed.

Any student requiring insulin shots must establish a plan for administration of insulin shots with the Executive Director or designee in consultation with the parent or guardian and the student's medical professional.

### **Staff Training and Emergency Response**

Additional information about staff trainings and the Charter School's response to emergencies can be located within the Employment Handbook and/or the School Safety Plan.

#### **A. Response to Anaphylactic Reaction**

The school nurse or trained personnel who have volunteered may use EpiPen to provide emergency medical aid to persons suffering, or reasonably believed to be suffering from, an anaphylactic reaction. Charter School will ensure it has the appropriate type of EpiPen on site (i.e., regular or junior) to meet the needs of its students. The school will ensure staff properly store, maintain, and restock the EpiPen as needed.

The Charter School will ensure any school personnel who volunteer are appropriately trained regarding the storage and emergency use of an EpiPen

The Charter School will distribute an annual notice to all staff describing the request for volunteers who will be trained to administer an epinephrine auto-injector to a person if that person is suffering, or reasonably believed to be suffering from, anaphylaxis. The annual notice shall also describe the training the volunteer will receive.

## B. Response to a Diabetic or Hypoglycemic Emergency

Charter School provides Charter School personnel with voluntary emergency medical training on how to provide emergency medical assistance to students with diabetes suffering from severe hypoglycemia. The volunteer personnel shall provide this emergency care in accordance with standards established herein and the performance instructions set forth by the licensed health care provider of the student. A Charter School employee who does not volunteer or who has not been trained pursuant to this Policy may not be required to provide emergency medical assistance.

Training by a physician, credentialed school nurse, registered nurse, or certificated public health nurse according to the standards established pursuant to this section shall be deemed adequate training. Training established shall include all of the following:

1. Recognition and treatment of hypoglycemia.
2. Administration of glucagon.
3. Basic emergency follow-up procedures, including, but not limited to, calling the emergency 911 telephone number and contacting, if possible, the student's parent or guardian and licensed health care provider.

A Charter School employee shall notify the Executive Director if the employee administers glucagon pursuant to this Policy.

All materials necessary to administer the glucagon shall be provided by the parent or guardian of the student.

In the case of a student who is able to self-test and monitor their own blood glucose level, upon written request of the parent or guardian, and with authorization of the licensed health care provider of the student, a student with diabetes shall be permitted to test their own blood glucose level and to otherwise provide diabetes self-care in the classroom, in any area of the Charter School or Charter School grounds, during any Charter School-related activity, and, upon specific request by a parent or guardian, in a private location.

Designated staff shall establish emergency procedures for specific medical conditions that require an immediate response (i.e. allergies, asthma, diabetes).

### **Administration of Medication**

Any student who is or may be required to take, during the regular schoolday, prescription medication prescribed or ordered for the student by an authorized health care provider may be assisted by the school nurse or designated Charter School personnel.

In order for a pupil to be assisted by the school nurse or other designated Charter School personnel in administering medication Charter School shall obtain both:

1. a written statement from the student's health care provider detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken, and
2. A written statement from the parent, foster parent, or guardian of the student indicating the desire that the Charter School assist the student in the matters set forth in the statement of the authorized health care provider.

These written statements specified shall be provided at least annually and more frequently if the medication, dosage/amount, frequency of administration, or reason for administration changes.

The primary responsibility for the administration of medication rests with the parent/guardian, student, and medical professionals.

### **Storage and Record Keeping**

- All medication will be kept in a secure and appropriate storage location and administered per an authorized health care provider's instructions by appropriately designated staff.
- Designated staff shall keep records of medication administered at Charter School. The medication log may include the following:
  - a. Student's name.
  - b. Name of medication the student is required to take.
  - c. Dose of medication.
  - d. Method by which the student is required to take the medication.
  - e. Time the medication is to be taken during the regular school day.
  - f. Date(s) on which the student is required to take the medication.
  - g. Authorized health care provider's name and contact information.
  - h. A space for daily recording of medication administration to the student or otherwise assisting the student in administration of the medication, such as date, time, amount, and signature of the individual administering the medication or otherwise assisting in administration of the medication.
- Designated staff shall return all surplus, discontinued, or outdated medication to the parent/guardian upon completion of the regimen or prior to extended holidays. If the medication cannot be returned, it will be disposed of at the end of the school year.
